

Vanity Tops · Beautiful · Forever

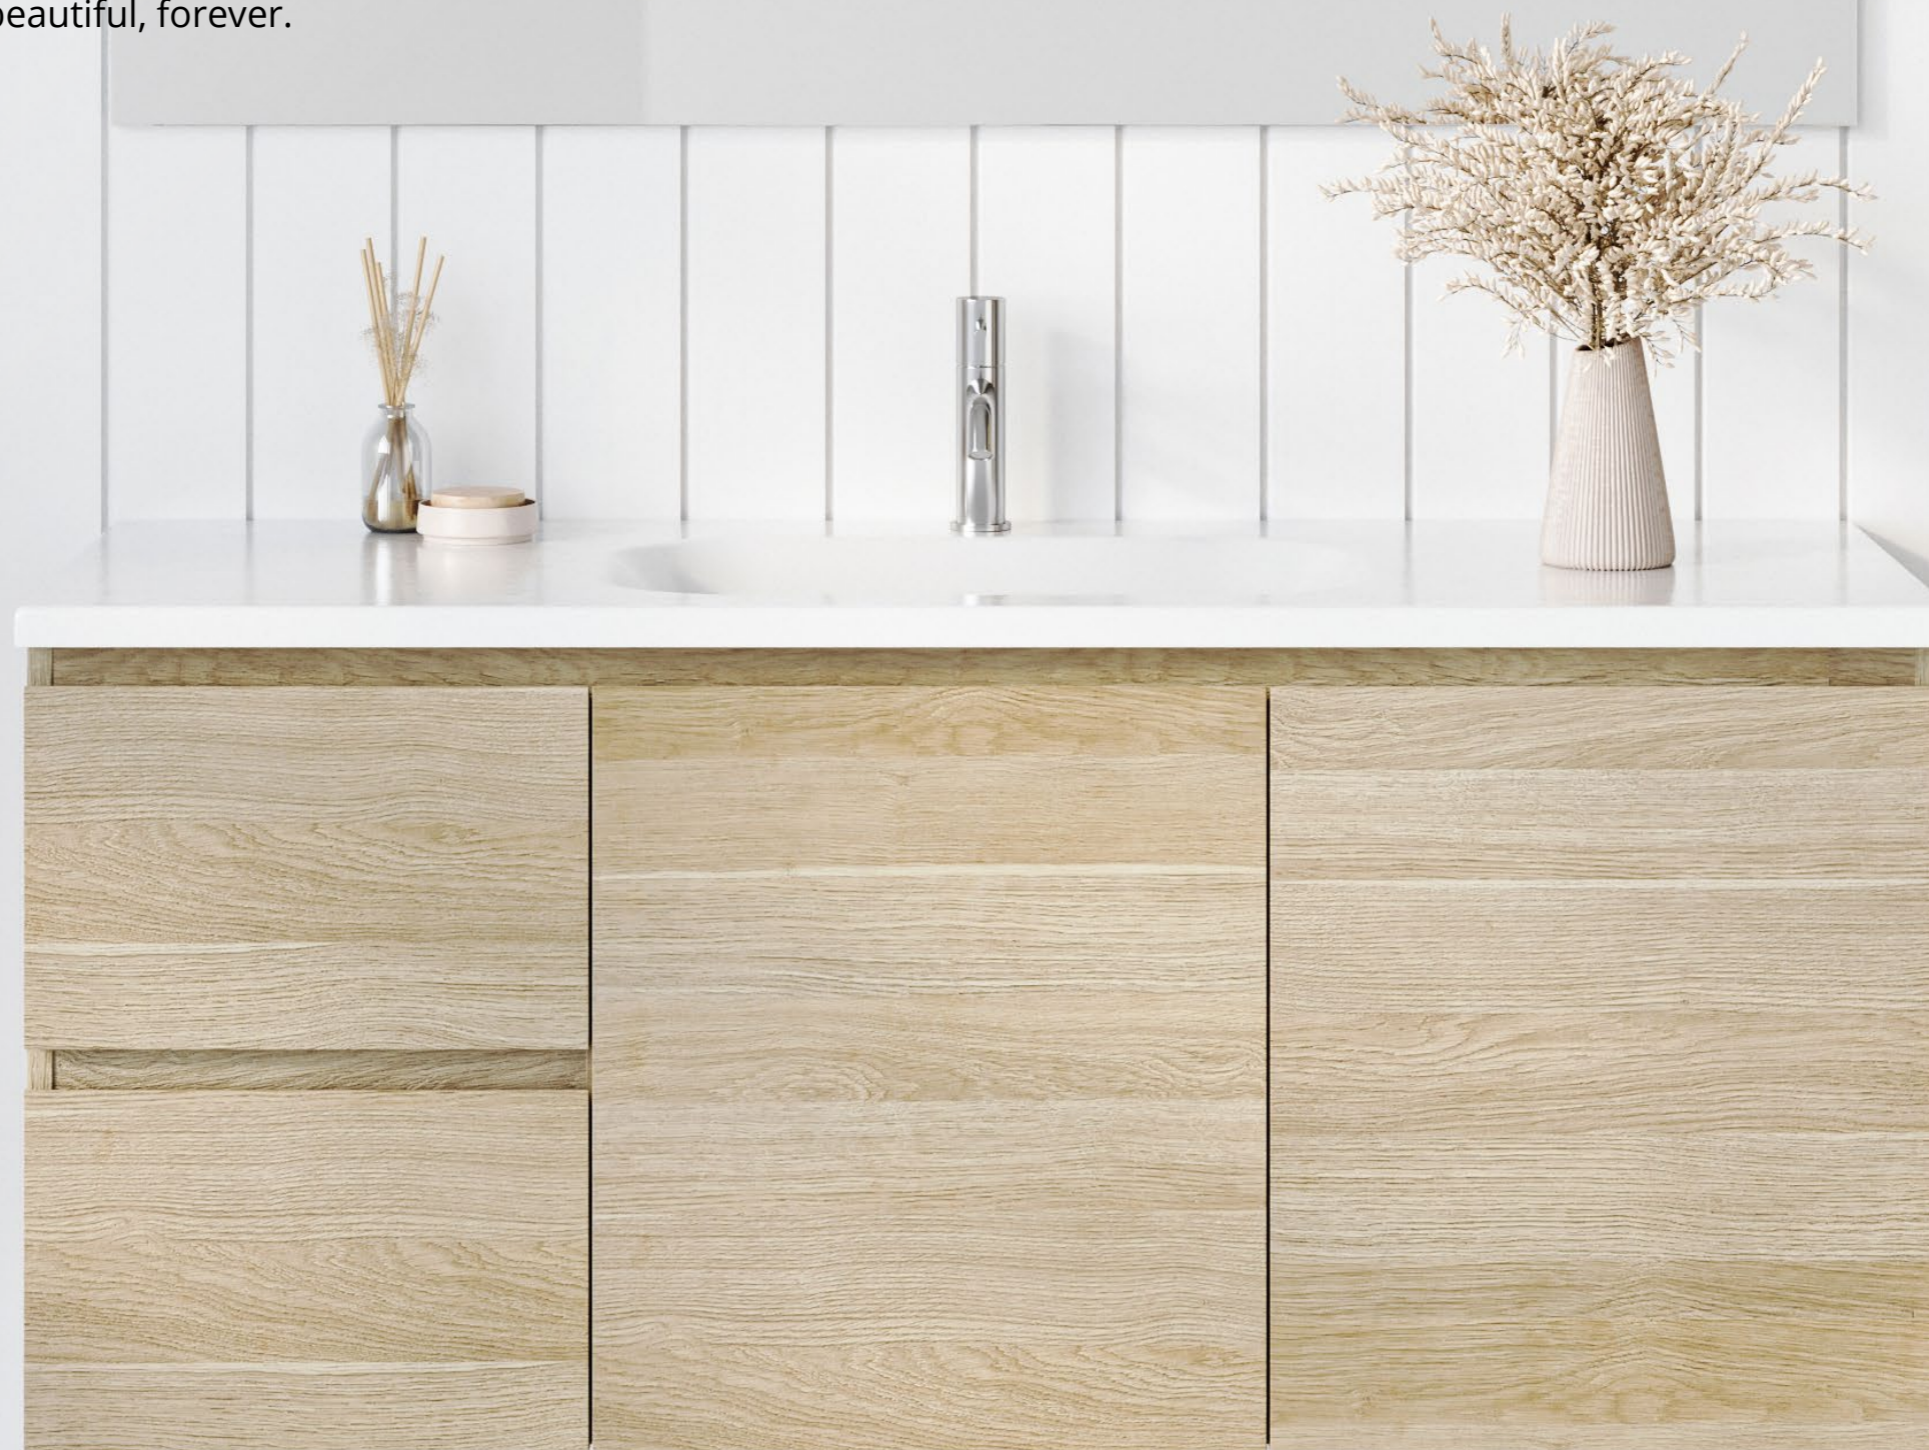

10 Year Warranty

100% Aussie Made

Vanity Tops · Beautiful · Forever

The right choice for durability and strength, Duroclass is the manufacturer of beautiful vanity tops that stand the test of time. Made in Australia and made to last. Just like a diamond – beautiful, forever.

Engineered with durability in mind, Duroclass vanity tops will thrive in bustling bathrooms, making them a reliable choice for renovators, cabinet makers and builders alike.

Why Mineral Composite vanity tops?

Duroclass Mineral Composite is made from crushed stone resin and impact resistant sheeting, creating a truly durable and dynamic material.

Let's delve into the technical details. Why are Duroclass Mineral Composite formed tops so durable?

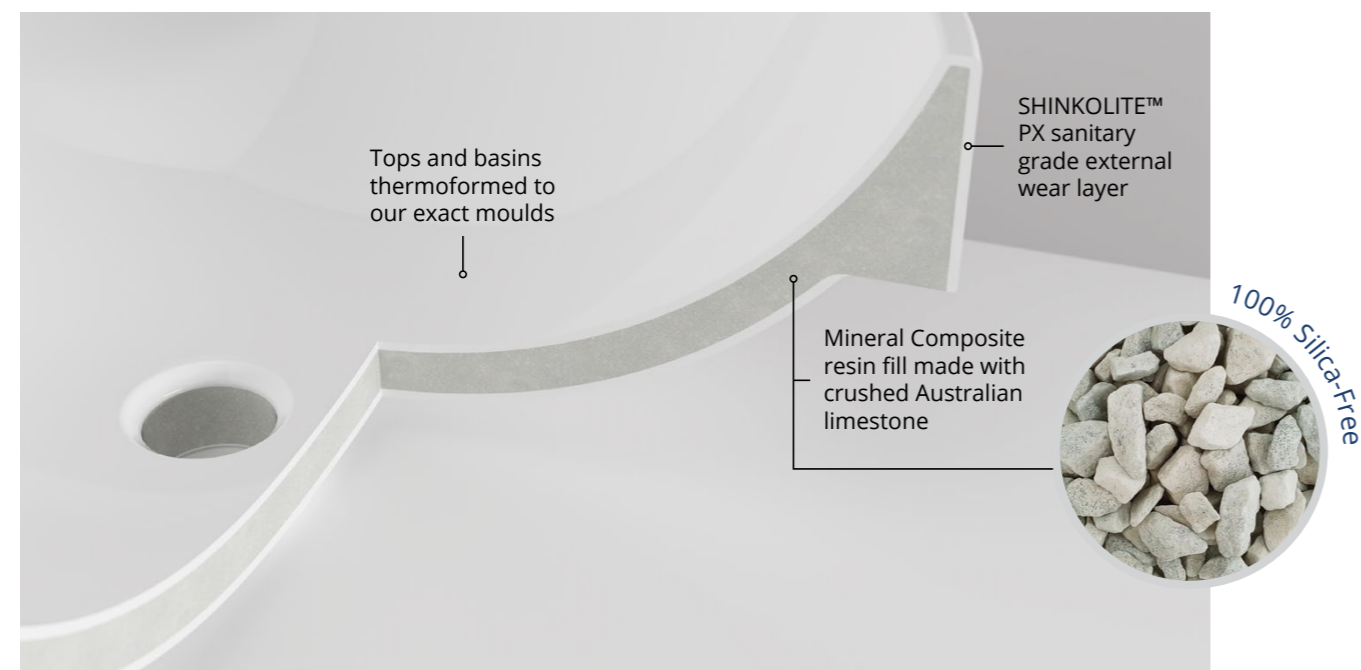

Each Duroclass Mineral Composite top comprises of two essential components: the outer skin and the inner core. The outer skin, crafted from SHINKOLITE™ PX Sanitary Grade sheet by Mitsubishi Chemicals, undergoes precision thermoforming to achieve the desired shape. This results in a durable, heat, and stain-resistant surface that can be easily repaired if damaged.

Beneath the surface lies a robust resin structural core, fortified with calcium carbonate. This core provides exceptional strength and rigidity, ensuring our tops are highly resistant to impact.

Tested to rigorous Australian Standard AS1730*, Duroclass tops are engineered to withstand the demands of everyday use.

When you choose Duroclass, you're investing in enduring beauty that will last a lifetime. Say no to cheap, imported ceramic tops prone to chipping, cracking, or crazing. Choose Duroclass Mineral Composite tops for timeless elegance and lasting durability.

Duroclass – Vanity Tops • Beautiful • Forever

*This includes Stain Test (AS3588.2), Thermal Shock Test (AS3558.16) and Impact Test (AS3588.15).

Not just a pretty face.

Our two-part manufacturing technique harnesses the properties of Mineral Composite to produce durable, precision-made vanity tops in a range of stunning shapes and sizes.

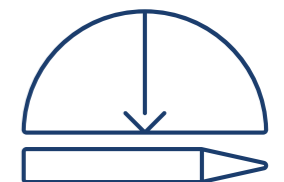

Super Strong

Duroclass tops combine a tough outer shell with Mineral Composite resin core to create a super strong, impact resistant vanity top.

Sanitary Grade

Duroclass tops are made from SHINKOLITE™ PX Sanitary Grade sheets and Mineral Composite with natural anti-bacterial properties.

Precision Made

Precision dies are used to thermoform our tops to exact measurements before back filling with Mineral Composite for a perfect fit every time.

Why our trade customers love Duroclass.

Australian Made

Our products are 100% Australian made. When our customers buy from us they know that they are getting a quality product from a reliable source.

10 Year Warranty

With 10 year warranty on all of our products, you can rest easy knowing that you've made the right choice for vanity tops with enduring strength and style.

See terms and conditions.

Order Online

All of our products can be purchased on the Duroclass website. Just head over to www.duroclass.com.au and log in or register for a wholesale account to have all products and pricing right at your fingertips!

Are you a cabinet maker or builder?

Purchase your vanity tops, basins or slab tops directly from Duroclass. Our extensive range offers styles and designs to suit any project.

Contact us today to open an account and access your customised pricing, inclusive of door-to-door freight. Purchase directly through our website or collaborate with us via your preferred plumbing merchant if you're a group home builder.

Building or renovating a bathroom?

You want your new bathroom to look great for years to come. That's why it's so important to pick a vanity top that is both good looking and durable.

While Duroclass, as the manufacturer, doesn't sell tops direct to the public – we are part of the Scott Group of companies. A sister company is Timberline, who have a massive range of Australian made vanities, many of which use Duroclass tops.

Looking for an alternative to stone?

Are you on the lookout for stunning alternatives to traditional stone for benchtops? We're thrilled to present SilkSurface, an innovative solution that not only captures the essence of natural stone but is 100% Silica-Free. It's available exclusively through Duroclass.

Sustainability & the environment.

As a leading regional manufacturer, we have a particular responsibility to the ongoing awareness and care for our natural environment.

Throughout the continual growth of our company, we strive to improve our facilities and manufacturing practices. Our aim is to create cleaner, safer, and more efficient production with environmental impact at front of mind, as we work to keep CO₂ emissions to a minimum.

Our production process is specifically designed to reduce the consumption of raw materials and minimise waste for each of our products. Our products contain majority-based natural materials including crushed Australian limestone, ensuring that they are durable, easy to repair and recyclable.

This is a long story...

A long story of a family manufacturing business that started way back in 1965.

- 1965** Angelo and Joe Mesiti started a company called Manooga that manufactured vanity tops. Manooga was based in Victoria Road, Gladesville NSW just beside the 'Gladesville Palace Theatre'.
- 1995** Fate intervened when they sold Manooga to David and Michael Page, school friends of their children. The Pages continued the family business traditions, expanding the vanity top range and introducing solid surfaces.
- 2006** Amongst many other clients, in 2006 they started selling vanity tops to Timberline, a family business founded by the Scott family in Armidale NSW. Timberline is the premier manufacturer of custom-made bathroom vanities in Australia.
- 2020** David and Michael Page thought the time was right to split the business. They retained the Manooga name and continued manufacturing solid surface benchtops. For the formed Mineral Composite vanity tops they could think of no one better to continue the tradition of family-run business manufacturing than the Scott family.

In late 2020, the manufacturing process that had been making Manooga vanity tops for 55 years was relocated to Armidale NSW, and are now part of the Scott Group of companies. The Manooga name continues to be used by David and Michael Page for their solid surface benchtop products. The new name Duroclass reflects the products enduring quality and elegance, symbolised by the diamond logo. Only after choosing this new logo did the Scott family find out interesting fact about the name Manooga. It is an Aboriginal word for 'precious stone'. What a perfect link to the diamond chosen to represent the new name Duroclass.
- 2023** Duroclass expands its product range with the introduction of SilkSurface, a 100% silica-free stone alternative.
- 2024** Continuing to grow its product range, Duroclass offers wall-mounted tops and basins with inclusive, AS1428-compliant designs.

Accessible Range

Sophisticated Design Meets Accessibility

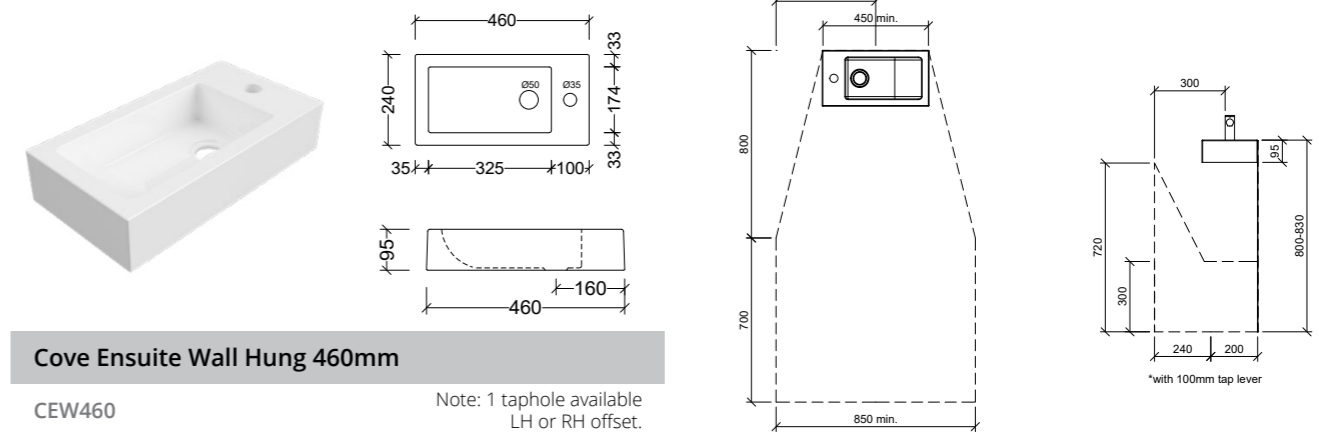

At Duroclass, we are committed to combining elegance with accessibility. Our new range of accessible-friendly vanity tops and basins embodies this philosophy, offering solutions that are as functional as they are stylish. These products are thoughtfully designed to cater to a wide range of needs, ensuring that everyone can enjoy a beautiful and practical bathroom space.

Our accessible-friendly vanity tops feature easy-to-reach surfaces and sleek designs that fit seamlessly into any bathroom space. These wall-hung tops provide the flexibility and modern look that many homeowners desire, while also making cleaning and maintenance a breeze. Crafted with the highest quality materials, these tops ensure durability and long-lasting beauty.

Whether you are designing a bathroom for accessibility or simply seeking a contemporary and practical solution, Duroclass has you covered.

SilkSurface Slab Tops

What is SilkSurface?

SilkSurface is a high performance 20mm solid surface solution. Through a specialised multi-process technique, these surfaces boast a beautiful range of colours, with the look and feel of natural stone, but so much more durable and easier to maintain.

Heat resistant

High heat resistance. Suitable for use with heated products.

Stain resistant

No risk of staining - even with red wine or makeup.

Hardness

Diamond polished surface for scratch resistance.

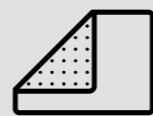

Easy clean

Easy clean, non-porous surface. Clean with any household cleaners.

Hygienic

Non-porous for a bacteria free surface.

Repairable

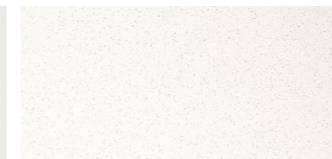

If scratched or damaged can be easily repaired in-situ with fine sandpaper and polish.

Global GreenTagCert™ Certified

SilkSurface™ is proudly certified by Global GreenTagCert™, one of the world's most respected and recognised eco-label programs. This certification confirms that our products are free from relevant harmful substances and safe to use, reflecting our dedication to providing surfaces that promote healthier living and working spaces.

The SilkSurface™ ranges have been independently assessed by Global GreenTag International and have achieved a Global GreenTagCert™ PlatinumHEALTH™ HealthRATE™ certification under Global GreenTag's Product Health Declaration (GreenTag PHD™) program and a Global GreenTagCert™ Silica Free verification under the Global GreenTag McV™ program.

SilkSurface™

SilkSurface fuses the beauty of natural stone with next generation technology. The result — a collection of robust yet elegant designs that enhance every space.

A MODERN DAY MASTERPIECE FOR ANY HOME. Visit silksurface.com.au to order your free sample.

Vanity Packages

Why choose a vanity package?

Our vanity packages come complete with everything you need to create a stylish and functional bathroom centrepiece. Each package includes a premium Duroclass top and cabinet combination, expertly designed to enhance any bathroom space.

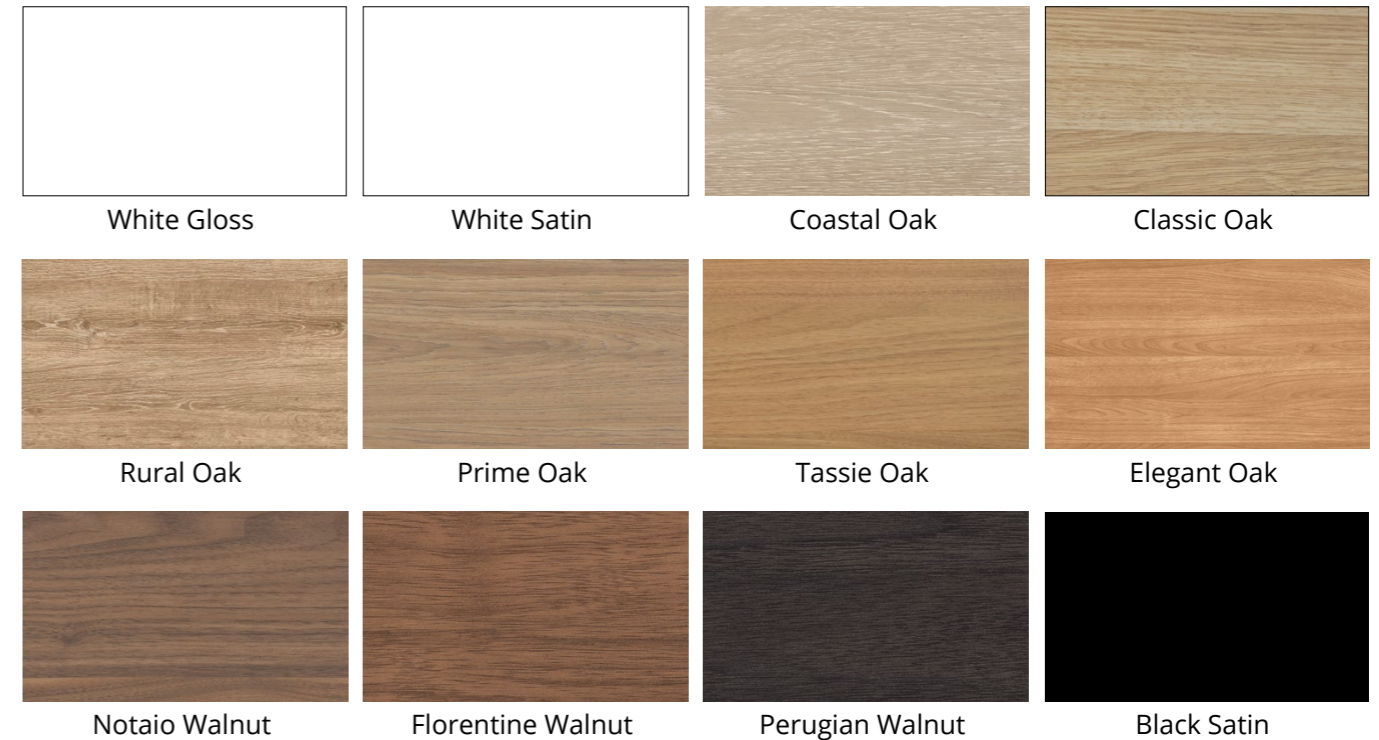

Whether you prefer the convenience of an all-drawer setup or the flexibility of a doors-and-drawers combination, our packages are designed to suit your specific needs and preferences.

With a range of sizes available, from compact 600mm centre bowl vanities to expansive 1800mm double bowl options, you can find the perfect fit for your space.

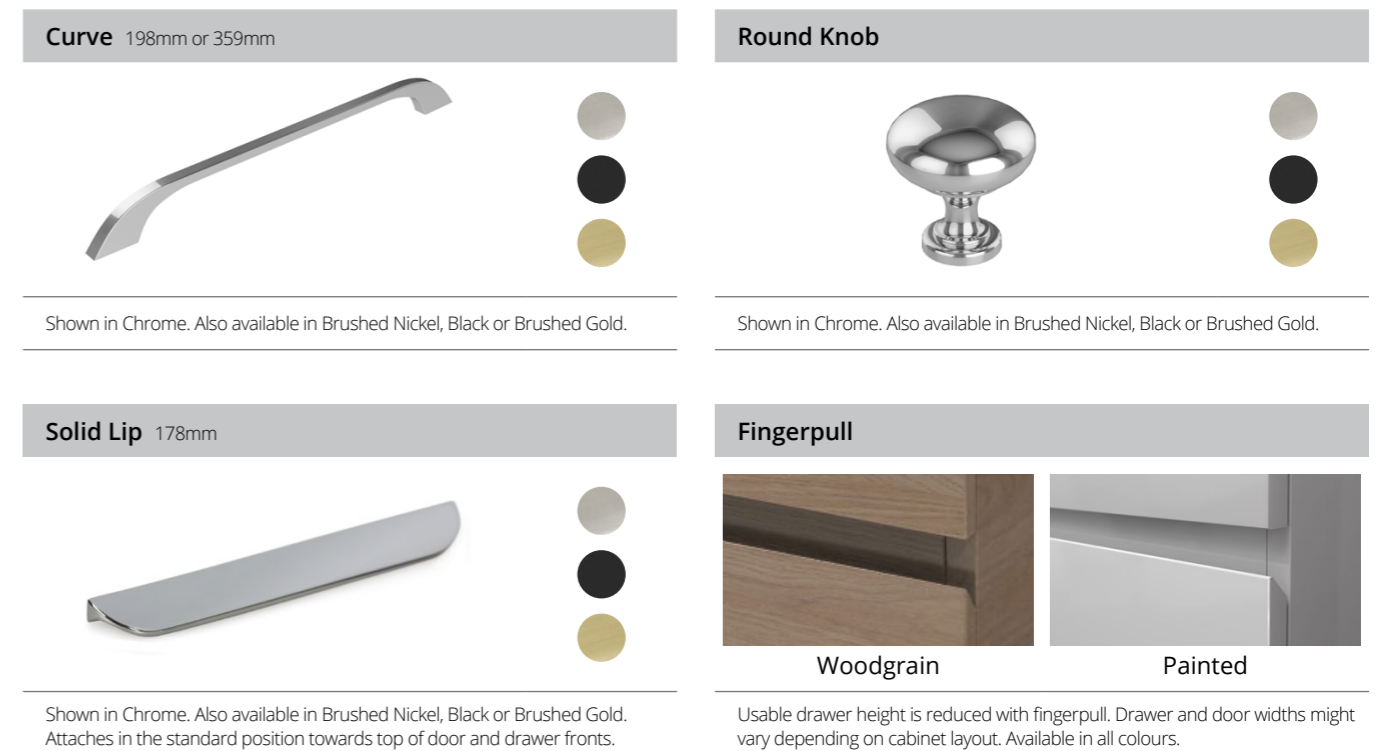

Plus, our vanity packages now come with the option of a SilkSurface top with your choice of Duroclass basin, giving a luxurious and long-lasting finish.

Product care and cleaning

Duroclass products are easy to clean and maintain. We recommend routine cleaning with generic non-abrasive household cleaning products or natural detergents, and wiping clean with a soft damp cloth or sponge.

Stubborn stains can be treated by gently rubbing the stain with a surface cleaner and non-abrasive cleaning pad and water. Avoid contact with strong chemicals such as paint removers, acetone, oven cleaners, hair dyes, and other strong chemicals.

The benefits of a Mineral Composite Top

- ✓ Large range of sizes and styles available
- ✓ Consistent quality and size
- ✓ No warping or imperfections
- ✓ Durable and long lasting
- ✓ Thermal shock resistant
- ✓ Non porous
- ✓ Light scratches can be polished out
- ✓ Sanitary grade and bacteria resistant
- ✓ Can be cut down to fit between walls
- ✓ Easy to keep clean
- ✓ 100% Australian made

Have you seen our Super Crates?

Manufactured to perfection, Duroclass can ensure your vanity top doesn't get damaged in delivery with our Super Crates. Each crate is built for your order, so rest assured that your product will come without any transit damage - staying beautiful, forever.

A test of strength...

It wasn't the boredom of long Covid lockdowns that drove us to this point.

In fact, we get a lot of people asking what the difference is between Duroclass Mineral Composite tops and traditional ceramic. So, we thought, why not compare them in a test of strength?

We know that when you drop a ceramic top from any height it smashes to pieces. Duroclass formed tops, however, are tough. We decided to go big and drop one off the factory roof!

It broke. At this point we were willing to concede that was a bit ambitious, so we tried again from inside the factory at a height of four metres.

Ceramic Top Drop Test

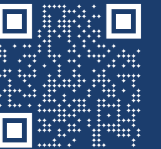

▲ The traditional ceramic stood no chance from a shallow height.

This time it stayed perfectly intact! And it still looked good enough to mount on a bathroom vanity.

There you have it. Unlike a ceramic top that smashes at the slightest knock, Duroclass tops are beautiful, tough, and made to last.

Don't believe it? Scan to watch the test in action

Mineral Composite Top Drop Test

▲ Success! The Duroclass top survives the drop from four metres, and still looks good enough to mount on a vanity.

Warranty

We aim to offer only the finest Mineral Composite vanity tops, crafted using high quality materials and proven manufacturing methods. As such we're proud to offer a full 10 year warranty on all of our products.

10 Year Warranty

Should you find that your goods are of an unacceptable quality within the 10 year warranty period, Duroclass will repair or replace the faulty item.

See terms and conditions.

Terms & Conditions

Duroclass warranty will only apply where the product has been installed by a qualified tradesperson and in full accordance with our installation instructions.

This warranty does not cover damage by improper installation, accident, misuse, abuse, negligence, excessive wear and tear, improper care and lack of maintenance, heat damage, use of harsh abrasive cleaners, water and natural causes such as sunlight, humidity and other environmental conditions.

Installation, cleaning and maintenance instructions must be followed to ensure validity of warranty.

Duroclass' liability is limited to repair, replacing, or giving a credit for the faulty goods and it does not include installation expenses and/or damages or removal of any unit. The purchaser must provide proof of purchase when making a claim. The warranty will be voided if a damaged or incorrect unit has been installed.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

To make a claim please contact Duroclass on the phone number or email address below.

Please note that installation of any product is regarded as acceptance of that product and therefore no claims for faulty or damaged goods can be made after installation. Any claim for faulty or damaged goods must be made within 48 hours from receipt of product.
